

OBJECTIVE

Senior Interior Designer seeks to utilize professional experience in creative design and project management in a forward thinking Architectural or Interior Design firm.

Key knowledge includes:

- Programming thru construction administration design phases
- Time Management
- Sustainable interior finish selection & design
- Custom millwork/furniture design
- Furniture, Fixture and Equipment Consultation
- Creative problem solving & client relations

EDUCATION

Bachelor of Science, Middle Tennessee State University, 1992

Major: Interior Design/Human Sciences

Minor: Industrial Technologies

PROFESSIONAL EXPERIENCE

- Managed all Interior Design activities for a firm of 20+ Architects, ensuring all interior projects remained on schedule and within budget to ensure the firm's profitability margins were met
- As Interior Design lead for LEED Certified projects: researched and incorporated sustainable building materials and helped verify all information required to obtain LEED points
- Conducted a feasibility study for a federal government project going for LEED certification to determine Congressional budgeting
- Managed furniture consultation projects emphasizing efficient work processes, resulting in a minimum of 35% profit for the firm
- Completed furniture consultation, design & procurement for 777,000 sq ft of space with a multi-million dollar budget, including generating additional business and services worth \$200,000
- Facilitated programming sessions for projects that lead to determining their branding image and substantial improvement in functionality and daily work performance

SOFTWARE

Skilled in all aspects of Revit Architecture, AutoCAD 2005, AutoCAD LT 2009, Microsoft Office 2007: Outlook, Word, Power Point & Excel, Windows XP
